

Together we can build collaborative neighbourhoods where people want to live!

- > Give residents, communities and local stakeholders access to the most comprehensive **range of collaborative services**.
- > Respond to the **social, economic and environmental issues** of your housing projects with concrete solutions.
- > Enjoy the benefits of a real-time **communications channel** with clients and residents before and during the construction phase.
- > Bring together partners and innovations within a progressive, coherent **ecosystem**.

“

Get on board with the no.1 digital collaborative services platform in France!

”

ENJOY THE BENEFITS OF SMILE SERVICES:

- Secure networks for apartment buildings and neighbourhoods
- Inclusive, concrete solutions for sharing goods and services, neighbourhood support, local information and mobility
- Flexible, innovative tools (alerts, events, reporting, surveys, etc.)
- An ecosystem that brings together all the stakeholders in the neighbourhood: retailers, associations, building managers, caretakers, etc.
- Impact, statistics and usage analysis reports
- Personalised support (from conception to delivery)

 With Smile you have peace of mind:
